

DETAILED SCHEDULING & PLANNING (DSP) (CPIM Module 3 – 9 Weekly Sessions)

Acquire a working knowledge of the tools and techniques for planning of inventory, including planning techniques such as MRP, CRP, lean, TOC, and projects. Understand the effect of using each technique; know standard measurements for inventory, materials, capacity, and supplier performance; and recognize when to escalate issues. Topics include:

- Managing inventory, planning material requirements, planning capacity requirements, and procurement and supplier planning
- Recognizing the importance of supply chain management and deploying supply chain strategies related to scheduling, planning, and sourcing
- Translating product-level plans and schedules generated at the master planning level into requirements that can be procured or produced
- Bridging the master planning area with the execution and control function
- Planning, scheduling, resource allocation, and implementing projects that are used to manage the supply of products and services

Classes begin Tuesday, April 22, 2014, 6:00pm-9:00pm

Classes will be offered at:

**Owens Community College
Arrowhead Learning Center**

1724 Indian Wood Circle, Maumee, OH, Room #131

Purchase your exam credit when you register, and save \$25

APICS CPIM Certification

The APICS CPIM program is organized into five modules, each focusing on key areas of study that are integral to an understanding and mastery of production and inventory management principles. In order to earn CPIM certification, the candidate must pass an exam for each of the five modules.

- > Basics of Supply Chain Management (Entry Module)
- > Master Planning of Resources (Core Competency Module)
- > Detailed Scheduling and Planning (Core Competency Module)
- > Execution and Control of Operations (Core Competency Module)
- > Strategic Management of Resources (Capstone Module)

(Although Basics of Supply Chain Management is viewed as a prerequisite for the other modules, the classes and exams do not necessarily need to be taken in any particular order.)
