

Upcoming November PDM

PO Box 2823, Toledo, OH 43606

Every month, APICS Toledo Chapter hosts a Supply Chain Event for members, guests, and students. Events consist of Professional Development Meetings (PDM), Plant Tours, Social, and Board Meetings. This is a great way to enhance your supply chain knowledge and earn certification maintenance points.

Transportation Roundtable

The peak shipping season is underway in support of the holiday retail season. Retailers experience a greater percentage of their annual sales during the critical November-December holiday season. The supply chains for US companies are global and extensive, including foreign and domestic manufacturers, suppliers, and customers, foreign and domestic ports, air freight, U.S. railroads and trucks, etc. Whether you're shipping products in, or shipping goods out, we're all affected by logistics challenges!

- We've all heard driver capacity can't keep up with demand, what is being done to adapt to the driver shortage?
- What other obstacles are our local and national logistics providers facing?
- What keeps these professionals in the supply chain up at night?
- What can those of us in other functions of the supply chain do to help ease these problems?

Join us for a roundtable discussion featuring **Ed Nagle**, President and CEO of Nagle Transportation, and **Matt Swade**, Account Executive with CH Robinson! We will be covering various aspects of the challenges facing the motor freight and rail/intermodal industries.

Bring your company's logistics person for **FREE!**
