

CSCP

CERTIFIED SUPPLY CHAIN PROFESSIONAL

Toledo Chapter

Commit to Your Career

The APICS Certified Supply Chain Professional (CSCP) program is the first and only supply chain certification that encompasses the end-to-end global supply chain. APICS CSCP designees gain the skills to effectively manage global supply chain activities that involve suppliers, plants, distributors, and customers located around the world.

Earning the CSCP credential makes you a recognized expert in the supply chain field. This professional distinction sets you apart from your colleagues, proving your high level of knowledge and skills. It makes you a more valuable asset to your organization, keeping you and your organization more competitive in today's economy. Earning your credential will help you:

- Boost your confidence with recognition as a supply chain expert.
- Master the knowledge most important to expert supply chain professionals as defined by the most current APICS Global Job Task Analysis.
- Expand your outlook on the supply chain field and bring new ideas to your workplace. Remain current with supply chain trends and developments.
- Stand out from other candidates in a job search.
- Demonstrate your long-term commitment to the supply chain profession.

Becoming a CSCP proves your supply chain management knowledge, competency and value to colleagues and to employers looking for a competitive edge in today's global economy. Wherever your career takes you, your CSCP certification defines you as a supply chain expert and leader.

Why choose an instructor-led class?

- Attending a CSCP certification review course is the most effective way to prepare to pass the CSCP exam
- APICS Toledo's certification review courses are based on the CSCP Learning System (see next page for details)
- Learn from a certified instructor who provides expertise, insights and one-on-one guidance
- Network, share experiences, and discuss topics with a diverse group of operations professionals
- Stay on track to earn your certification with a structured learning experience and support

About the Course Instructor - Sheryl K. Holbrook, CPIM, CLTD, CSCP, C.P.M.

Prior to becoming an APICS instructor, Sheryl had over 25 years' experience in the manufacturing sector, and has a background in various positions within materials management, including production materials planning; inventory control; vendor relations; and purchasing. Sheryl began teaching APICS CPIM certification classes in 2012. She has been a CPIM lead instructor since 2014, and she began teaching CSCP classes in 2014, as well. Sheryl has taught various classes at Bowling Green State University, The University of Toledo, and Owens Community College, as well as numerous certification classes for the Toledo chapter of APICS. She has also provided in-house certification training for MOBIS Toledo, MOBIS Detroit, Johns-Manville in Defiance, and Magna's T.E.A.M. Systems in Toledo.
